"""
Topic: Tuple Length
Reference : NPTEL:https://onlinecourses.nptel.ac.in/:Course-Python for Data Science
"""
len() - returns the length of a tuple
Syntax:
    len(tuple_name)
"""

student_details = (1, 'Ram', 90, 'Comp')
# print the tuple
print(student_details)
# (1, 'Ram', 90, 'Comp')
# 0   1   2   3
len(student_details) # returns length
"""
Out[33]: 4
"""
